BEFORE YOU BEGIN...

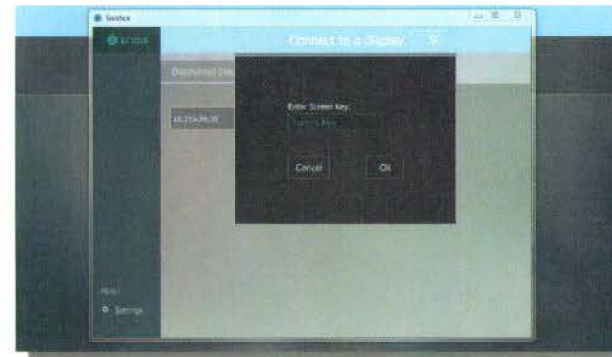

(1) **Connect** to "Mason-Secure" wireless network. (2) **Select** the "Wireless" button on the room touchpanel.

1

Open your internet browser
Connect to the IP address on the screen
 (Note: Run a file if prompted, then select the "Enter IP" tab)

2

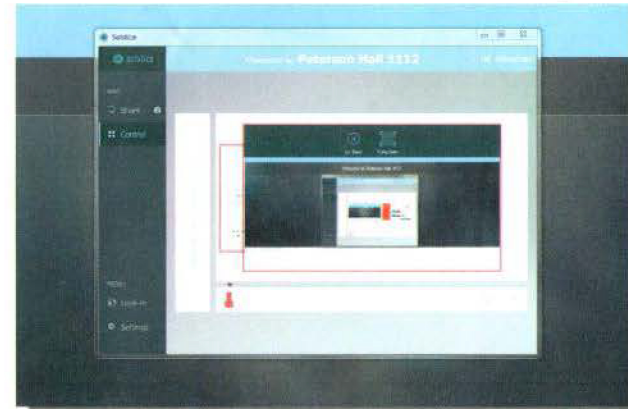

Enter the 4 digit code displayed on the screen when requested
 (Note: code will be different each time you connect)

3

You are now connected!
Share your desktop
Share an active application (i.e. PowerPoint)
Share a media file you have saved on your laptop

4

Every file you select will be put in a queue
 To **display a file** full screen, select the image and select **Full Screen**

TO DISCONNECT...

Select the "Stop Sharing" button to ensure that your sharing session is terminated.
