- **Apple Airplay**
Using the Solstice app you can share from apple devices using airplay
- **Windows/Android**
Using the solstice app, compatible android and windows devices can share using Miracast

Troubleshooting Tips

- **Can't connect to wireless**
Ensure the device you want to share from is connected to the “eduroam” Wi-fi network and disable any active VPN's on your device
- **No Sound from connected laptop**
Open settings within the solstice app and install additional audio drivers when prompted
- **Can't increase volume on display**
Unenclosed meeting spaces have limited volume to prevent sound overlap
